

Can you help?

We have a number of projects that need completing.

Can you commit to taking on one of these?

Projects include:

- Build handrail on basement stairs
- Finish stripping then stain remaining trim in hall
 - Reconstruct banister in second floor hall
 - Organize storage of architectural materials
 - Replace missing trims on second floor

We can schedule work at your convenience and pace.

We ask that if you take on a project, you commit to a deadline and complete the project in that time.

Assistance in setting up project will be provided.
